Please assist us by providing the following information at the time of your initial visit:

- Your endodontic referral slip and any X-rays, if your dentist gave you those.
- A list of medications you are presently taking.
- If you have dental insurance, bring the necessary information or forms, as this will help us to process your claim.

Your initial appointment will allow Dr. Noble a chance to review with you all of your medical history, evaluate your tooth problem, formulate a diagnosis, and discuss any treatment options.

This procedure will be performed using local anesthesia. There are usually no restrictions after the procedure concerning driving or returning to work. Dr. Noble is available for consultation at all times should a problem arise after your treatment.

Continue all medications for blood pressure, diabetes, thyroid problems and any other conditions as recommended by your physician. If there is a question, please call our office prior to your appointment.

**IMPORTANT:** A parent or guardian must accompany ALL patients under the age of 18 years of age at the consultation visit.
